The Vought F4U Corsair is an American fighter aircraft which saw service primarily in World War II and the Korean War. Designed and initially manufactured by Chance Vought, the Corsair was soon in great demand; additional production contracts were given to Goodyear, whose Corsairs were designated FG, and Brewster, designated F3A.. The Corsair was designed and operated as a carrier-based ...

Vought F4U Corsair - Wikipedia

The EE20 engine had an aluminium alloy block with 86.0 mm bores and an 86.0 mm stroke for a capacity of 1998 cc. For its Euro 4 and Euro 5 versions, the EE20 engine had a semi-closed block (i.e. the cylinders bores were attached to the outer case at the 12, 3, 6 and 9 o'clock positions) for greater rigidity around the head gasket.
