Hi, I've got a 1999 50 HP 4 stroke mercury outboard motor. Serial # 0G797897. I can only get about 1\2 to 2\3 max rpms from it under load. On the trailer with hose hooked up it'll go wide open. New fuel filter, almost new spark plugs and lots of fuel flow at the carbs. Hoping you can give me some ideas what to look for.
