The 6.4 Hemi (392 Hemi) is used in the 2011 and newer SRT8 cars including the Jeep Grand Cherokee SRT8. The engine is different from the one in the Challenger Drag Pack (the Mopar crate engine); for one, the standard 392 shuts off four cylinders when they are not needed, to increase gas mileage. The crate and production engines have a different bore, stroke, cam, heads, compression, and intake.
