Brad Smith and Leila Little are speech pathologists. But their job is a little different than you might think. As certified lymphedema therapists in the Speech Pathology and Audiology section of Head and Neck Surgery, Smith and Little work with patients to reduce head and neck lymphedema -- swelling that can be a complication of their cancer treatments.

Treating head and neck lymphedema in cancer patients
T cells are important in tumour immunity but a better understanding is needed of the differentiation of antigen-specific T cells in human cancer 1,2.Here we studied CD8 T cells in patients with human papillomavirus (HPV)-positive head and neck cancer and identified several epitopes derived from HPV E2, E5 and E6 proteins that allowed us to analyse virus-specific CD8 T cells using major ...
