One major role in the 'brand' or 'corporate image' of a company is its identity. In most cases, identity design is based around the visual devices used within a company, usually assembled within a set of guidelines. These guidelines that make up an identity usually administer how the identity is applied throughout a variety of mediums, using approved colour palettes, fonts, layouts ...

Other designers do what I call a 'semi-custom' design where they use a WordPress framework such as Avada or Divi and they kind of make you a custom-looking site. It's not really a custom site but it's more tailored to your company than an out-of-the-box template. These designers usually charge \$1,500-\$3,000 for a website project.
