215 reviews of Bugs A to Z Pest Services "Bugs A to Z is the bomb! (Fumigation pun intended.) I recently had an unexplainable and thoroughly grody flea infestation. After scrubbing the dog three times (sorry, Moose), applying two packages of Advantage, shampooing the carpets, and fogging the entire house, the little bastards were still hanging on.

A-Z of Insects

Insects (class Insecta) have segmented bodies, jointed legs, and external skeletons. Insects are distinguished from other arthropods by their body, which is divided into three major regions: (1) the head, which bears the mouthparts, eyes, and a pair of antennae, (2) the three-segmented thorax, which usually has three pairs of legs in adults and usually one or two pairs of wings, and (3) the ...
