let's go with "Alice in Wonderland" since it's a well-known book, and there's probably a free eBook or two for this title. The original work is in the public domain, so most of the variations are just with formatting and the number of illustrations included in the work. However, you might also run into several copies for sale, as reformatting the print copy into an eBook still took some work. Some of your search results may also be related works with the same title.

"I am not sure whether I should say that the worst is over and the best is ahead of us. We are sitting ahead of a potential Russian default in the international bond market. It already could not pay on Friday and going forward, they get a month to cure the default and there are two more bonds coming up at the end of June. In the face of that, it's a little premature to celebrate."

We are in a bear market rally; they do not usually last:
