Washer, Dryer, Dishwasher Forum Index

Check for small items caught in the dryer drum. Coins, buttons, or paper clips can get caught between the drum and the front or rear of the dryer. Use a flashlight to inspect the drum and remove any objects. Always check and empty pockets before loading a washer or dryer. If you hear loud thumping, the clothing may be knotted or balled up.

This is the most common symptom we hear on all brands of dryers. One of the appliance parts most of us suspect first is the heating element (see common Whirlpool elements below), but there are several other appliance parts on the dryer and one item that is not on the dryer that can produce the same symptom. You will save time, energy, and money if you will take a few moments to prove exactly ...
