Vinyl (PVC) history began in the 1920s, when scientist Waldo Semon discovered a new material while researching adhesives. Learn more about Waldo's research and the birth of the vinyl pvc industry. Vinyl

## **Vinyl (PVC) History**

Polyvinyl chloride or PVC was never patented until 1913 when German, Friedrich Klatte invented a new method of the polymerization of vinyl chloride using sunlight. Friedrich Klatte became the first inventor to receive a patent for PVC. However, no really useful purpose for PVC was found until Waldo Semon came along and made PVC a better product.
